## Safe House Full Crack [hack]

Download >>> <http://bit.ly/2SOfw3>

### About This Game

In Safe House, step into a top-secret spy headquarters situated in the fictional African nation of Kazataire. As the Safe House manager, you must build and upgrade the rooms – which will grant you new abilities and operations. You'll also be tasked with generating revenue each day by completing various espionage activities ranging from breaking codes to forging IDs.

But secret agents don't work alone. As a behind-the-scenes director of a shadowy political conflict, you will recruit, train, and deploy spies and soldiers, shaping the events of the game's non-linear story. Will you complete your mission – regardless of the cost? Can your allegiances be bought and sold? In the shadows, it's difficult to tell friend from foe.

## KEY FEATURES

- Run, construct, and manage your own top-secret spy headquarters.
- Devise and solve a variety of spy-themed puzzles – such as decoding scrambled messages, forging documents, and

---

exchanging secret phrases.

- Embark on a non-linear story campaign and unlock multiple endings dependent on player choice.
- Play your way in 'Endless' mode.
- Immerse yourself in a retro art style that evokes classic spy films of the '60s.

### STRIKING BACK

The agents planted the bomb successfully, and the apartment where the suspected conspirators were in hiding has been destroyed.

CASH EARNED: +\$5,000

XP EARNED (PER SPY): +6,000 XP

---

Dead game. Its been 8 months and still no update to fix a bug which I cannot progress any further. Developer site is down and it looks like they left us in the dark. I feel bad for people who just got it. I got it a month after release. Please take this off the market.
